Text

Empower Your Reports with Dynamic, Customizable Text

Text Visual is an innovative tool that **converts plain text into engaging and visually appealing graphics**. Its user-friendly editor with HTML support ensures flexible and visually appealing reports.

PRODUCT OVERVIEW

Text Visual is designed for anyone looking to **enhance textual Content in company reports**. It offers a user-friendly interface and a variety of customization options to suit different needs. Input and format plain text or display a text directly from an attribute.

HOW DOES IT WORK?

Use the text editor in the visual menu to input custom plain text or add an attribute in the Text Visual interface. Plain text can be formatted in the integrated text Editor using the intuitive interface, HTML or the custom syntax. Formatted text from an attribute can also be displayed accordingly. For easy sharing and presentation, the visual can be exported into a PDF file.

ADDITIONAL FEATURES

Individual Formatting: Format text using the Text Editor interface, HTML syntax or custom syntax

Different Datasources: Display text from different datasources (Text Editor, Attribute, Mixed)

Combine Datasources: Add custom text to the text from the attribute
